PROTECT YOUR PARKS

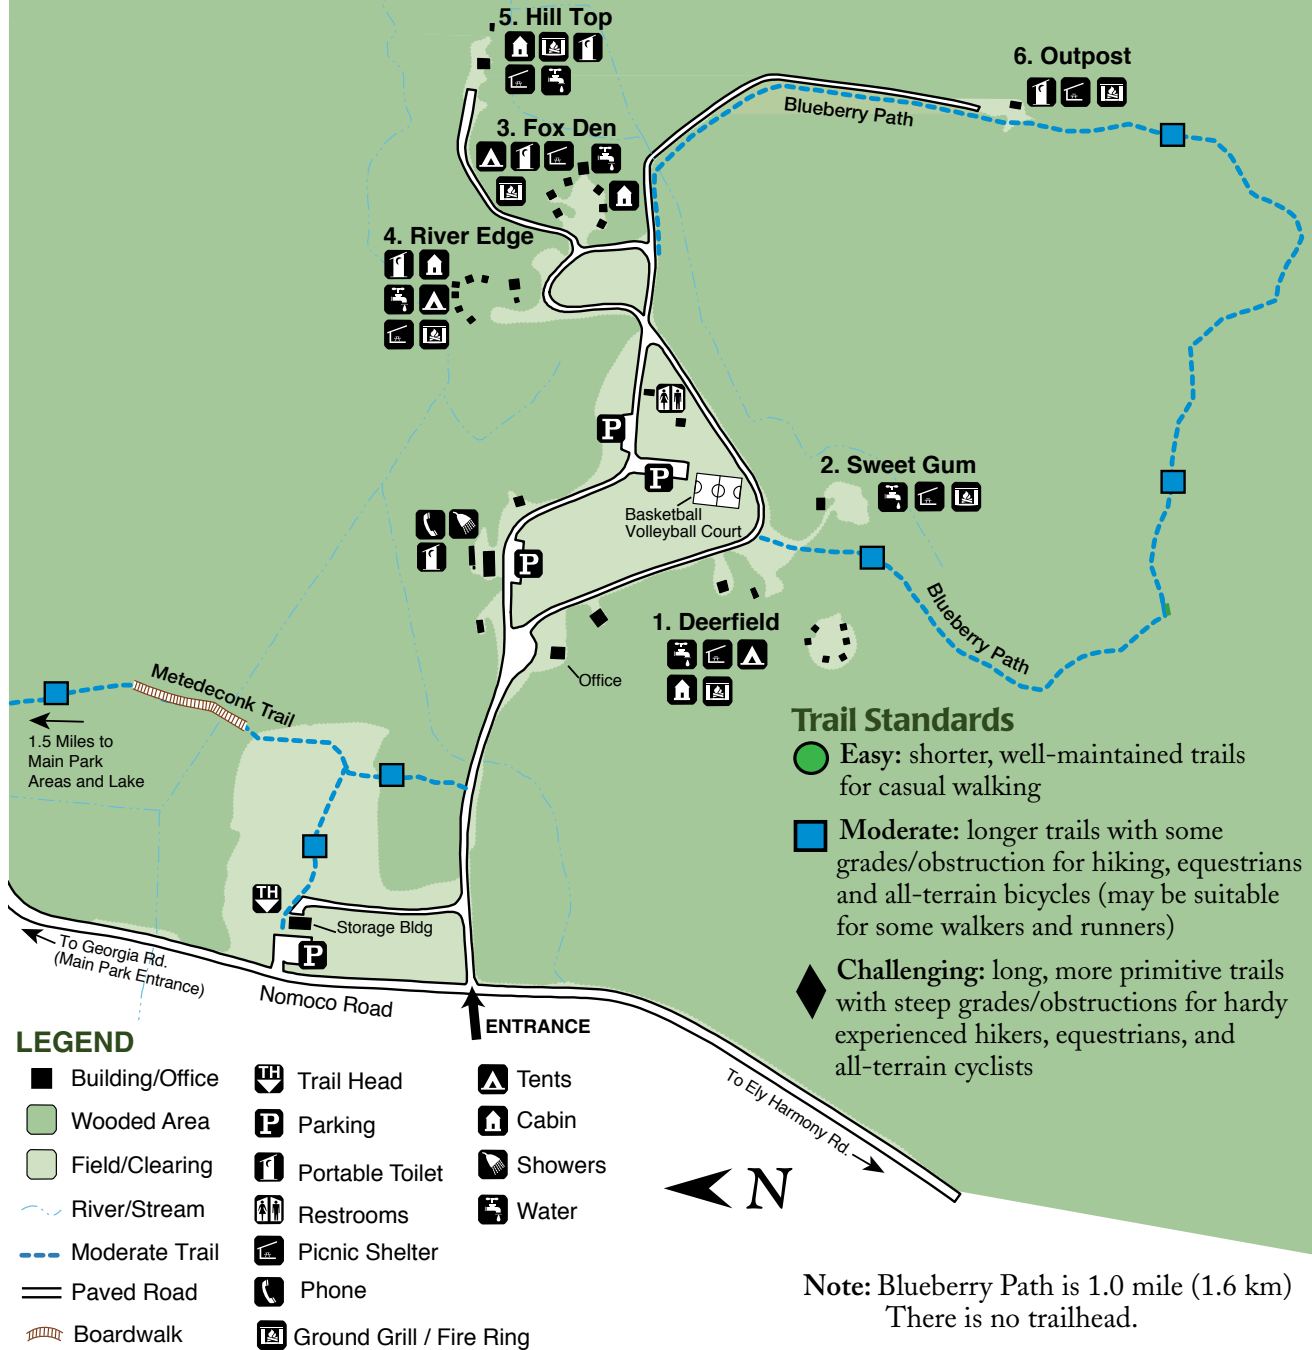

The Park System preserves and manages natural and cultural resources on more than 15,000 acres of land in Monmouth County. Protecting water quality, eliminating invasive plant species, and promoting healthy wildlife habitats are just a few objectives. Please help protect the park by leaving flowers, plants, animals, and other features as you found them; adhering to the posted park rules; using designated containers for trash, recyclables and pet waste; and keeping your pets leashed. Alcoholic beverages are not permitted.

An overabundance of white-tailed deer in and around Turkey Swamp Park is threatening the health of native plant and animal species. Portions of the park may be open for deer hunting during some or all of the State regulated hunting seasons. All areas open for hunting are clearly posted. For more information, visit www.monmouthcountyparks.com, or call (732) 842-4000, ext. 4237.
